is unthinkable.

Doubtless among the 155,000 or more who tilted the ocean edge of the island slightly on end yesterday there were thousands who, regardless of what the Coney restaurateurs and showmen thought, believed they were spending their last damp Decoration Day at the island, alcoholically speaking, and so one could readily understand it if the visitors who jammed Surf avenue and environs during the afternoon and night set themselves about to get stewed, lit set themselves about to get stewed, lit and plastered. But they didn't. Ex-plain as one will, the crowds at Coney Island this year stay all day and a good part of the night and still are able to return to Brooklyn, Manhattan and points north, east and west with their good conduct badges intact.

People Drink and Stay Good. "The police records," proudly said Alf Feitman, "are absolute proof that even with the Leer and other sicoholic drinks running as freely as ever and then some, people can drink and be good. The five cent frankfurter has absolutely disappearde from the island; therewere some to had there last year, but now the uniform price is a dime, men, ten cents, then tenth paht of a dollah; and this despite the fact that the new Coney fodder, known as the "jelly apple" and invented right on the island by the eminent candy butcher, Johnny Heppe, has begun to back the hot dog into second place even on Coney Island. into second place even on Coney Island,

In proof of the fact that Mrs. Drum had caught the brook trout in the park lagoon it need only be said that Mrs. Drum's husband showed the reporter the exact place in the lagoon where the trout had risen.

"But, listen, Mr. Drum," said some one, "the water in the lagoon is sait water pumped in here from the meadowa lish't it?"

The matter of installing negro families in apartment houses now occupied almost exclusively by Jews was brought up at a meeting of the Brownsville Landlords Protective Association at 1,703 Pitkin avenue on Thursday night. Samuel Spain, secretary of the association, read a letter from the American African Colonization Association of Manhattan, in which an offer was made to fill up vacan apartments in Brownsville houses with negro families. The only stipulation was that the landlords would give their new tenants leases for five years. The association asserted that a colonization of 5,000 negro families could be effected immediately.
